New York, N. Y.

## Terms

This list cancels all previous offers.

All sales are made subject to the terms and conditions of our printed catalog.

*Disclaimer:* We give for ourselves or our Principals no warranty, express or implied, as to the description, quality or productiveness, or in any other respect for the seed we deliver, nor will we be responsible for the crop in any way. In no case shall we or our Principals be held liable for more than the invoice value of the seed sold.

*Payment:* Our prices are calculated on a strictly cash basis; customers remitting with their orders will be allowed 5% discount. When remitting please add for postage and packing.

Minimum charge for any one item 25 cents.

Seed of Oriental origin is offered for account of Messrs. T. Sakata & Co., Japan's Leading Seedsmen. As their representatives in the United States and Canada you will always find us prepared to quote and assist you in locating seed originating in the Far East.

---

## OUR NURSERY STOCK BROKERAGE DEPARTMENT

Will be commissioned to purchase this fall a considerable quantity of planting material. You are, therefore, urged to place our name on your mailing lists so that we shall have on file at New York at all times a copy of your latest catalogue.

All are invited to list their wants with us. If we are not fully posted on the items you wish to buy, we will advertise for them in our monthly bulletin. You will then have a picture of values through the country and be enabled to buy at the very best price, goods measuring up to your standards of quality.

For this service there is no charge as the seller pays our brokerage.

Nurserymen who first came to us with their most difficult problems — and the Want List below is an example — have realized the economies offered in buying through a broker. More of you should try it, particularly as you cannot possibly lose more than the cost of writing us for prices.

### WANT LIST

For use near New York City

50 Pinus banksiana	14-16 ft. high
50 Pinus banksiana	14-16 ft. high
50 Pinus banksiana	18-22 ft. high

## A BETTER DELPHINIUM

We offer seed of a strain (BELLADONNA X WREXHAM), which produces 6-8 ft. plants with 2-3½ foot spikes of enormous 2-2½ in. blooms. In our mixture you will find a wide range of colors—blue, rich purple, mauve orchid, rose pink, rosy magenta, sapphire and white and combinations of them.

per oz. \$5.00      per 1/4 oz. \$1.50

# STONE FRUITED AND PYRUS SEED

## which is best purchased now

### JAPANESE FLOWERING CHERRIES

*Reservations for this seed should be made at once and we will forward it to you upon arrival. The best procedure is to keep it in damp sand in a cool place and sow just before the ground freezes. Nature will do the rest in temperate climates. This is based on experiments by the Brooklyn Botanical Gardens.*

Hedyscepe canterburyana, Canterbury Palm  
at \$7.00 per 100 seed or \$50.00 per 1000

Howea belmoreana, Belmore Palm

Howea forsteriana, Foster Palm

at \$3.00 per 100 seed or \$25.00 per 1000

### HARDY RHODODENDRON HYBRIDS SEED

We expect to secure from England seed of named varieties of Hardy Rhododendrons Hybrids. There will unfortunately be only minute quantities of seeds available as it is almost impossible to find collectors properly conversant with the subject. If you would like to receive advanced information as to varieties available, please write us so we may place your name on file.

## AZALEA SEEDS

## HIMALAYAN RHODODENDRONS

Available only in packets of about  $\frac{1}{16}$  ounce \$1.50 cash.

**ANTHOPOGON:** A low shrub found at an altitude of 14,000 feet. Lvs.  $1\frac{1}{2}$  in. long. Fls. funnel form  $\frac{1}{2}$  in. long, yellow with white terminals.

**ARBOREUM:** Shrub or tree attaining 40 feet, at 8/9000 feet. Found hardy in Pennsylvania. Lvs. oblong, 4-6 in. long and distinctly veined. Fls.  $1\frac{1}{2}$  in. long, in dense clusters, color range deep red to pinkish white.

**ARBOREUM:** Same as above but collected only from deep red flowering plants.

**BARBATUM:** Tree to 60 feet at 12,000 ft. Lvs. elliptic 5-7 in. long. Flowers bright, scarlet  $1\frac{1}{2}$  in. across in dense trusses. Prospers in ordinary soil.

**CAMELLIAEFLOSUM:** Six foot shrub found at 8/9000 feet altitude. Lvs. Lanceolate, 2-3 long. Flowers camellia like, 1-2 in. white faintly tinged rose.

**CAMPANULATUM:** Large 16 feet shrub found at 13,000 feet. Lvs. elliptic-oblong 3-6 in. long. Flowers campanulate 2 in. across vary in color from purple and blue to pale lilac white. Extremely hardy.

**CILIATUM:** Small 2-4 feet shrub, prospering at 10,000 feet. A wonderful rock garden subject. Lvs. elliptic about 2 in. long. Fls. in May, campanulate  $1\frac{1}{2}$  in. across, pale purple and rosy.

**CINNABARINUM:** Slender branched shrub at 11,000 feet. Lvs. almost Lanceolate 2-3 in. long. Fls. April/May tubular, nodding,  $1\frac{1}{4}$  in. long, brick-red to orange.

**DALHOUSIAE:** Straggling eight ft. shrub found at 8000 feet. Epiphytic in character. Lvs. elliptic 4-5 in. long. Flowers 3-7 in umbellate head. Blooms resemble the Bourbon Lilly, very large  $4\frac{1}{2}$  in. across and have a sweet lemon scent. Color varies from yellow and pink to creamy white, often spotted orange.

**EDGEWORTHII:** A small straggling epiphytic pendulous shrub found upon rocks and trees at 7/8000 ft altitude. Lvs. obovate, blackish green, 3-4 in. long. Fls. May/June, few but large campanulate shape  $4\frac{1}{2}$  in. across 3 in. long. White tinged blush and pale yellow.

**FALCONERI:** Shrub or tree attaining 30 ft. According to J. D. Hooker never found under 10,000 ft. Lvs. obovate 8-10 in. long. Fls. in heads with immense numbers, campanulate 1-2 in. across, cream colored or pale yellow with dark purple blotches.

**FULGENS:** Similar to R campanulum, 12,000 ft. Lvs. smaller but bright scarlet, in dense heads.

**GLAUCUM:** Small shrub to 3 ft. at 11,000 ft. altitude. Lvs. oblong 2-4 in. Fls. rich rose colored, campanula  $1\frac{1}{2}$  in. across.

**GRANDE:** Tree to 40 ft. growing at 9000 ft. Lvs. oblong-obovate 8-10 in. long 3-5 in. wide considered the largest leaves of the specie. Fls. in April, campanulate, 5 lobed, 2-3 in. across, 2- $2\frac{1}{2}$  in. long pinkish changing to white.

**GRIFFITHIANUM** var **AUCKLANDI:** Bush 4-6 ft. high, found at 10,000 ft. Lvs. 4-10 in. long, margin often tinted yellow. Fls. largest of genus 4-5 in. wide, 4 in. long, Calyx bright pink veined, yellowish and deep rose.

**HODGSONI:** Shrub or small tree, 20 ft. 10/12000 feet altitude. Lvs. 12-18 in. long, thick, much wider at the end than at base, brilliant deep green. Flowers May/June, copious, campanulate, 2 in. across, dark rose to pale purple.

**LANATUM:** Very small shrub on tree, 10/12000 ft. attitude. Lvs. obovate with tawny wooly tomentum beneath 3-5 in. long. Fls. June, 610 broadly campanulate 2- $2\frac{1}{2}$  in. across, yellow spotted red within. A fine rock garden plant.

**LEPIDOTUM:** Slender 4 ft. shrub found at 12000 ft.. Lvs. obovate, glaucous  $\frac{1}{2}$ - $1\frac{1}{2}$  in. long. Fls. 1-3, campanulate, dull purple sometimes yellow,  $\frac{1}{2}$  in. across.

**LEPIDOTUM** var. **CHLORANTHUM:** 2-4 ft. shrub at 7000 ft. Fls. May/June, greenish or pale yellow, spotted greenish about 1 in. across.

**MADDENI:** 8 ft. shrub found 6000 ft. elevation. Lvs. lanceolate 4-6 in. long. Flowers June/August, funnel shaped,  $\frac{3}{4}$  in. long, 3 in. across. White, faintly blushed, agreeably scented.

**NIVEUM:** Small shrub allied to R. Campanulatum. Lvs. 3-6 in. long. Fls. campanulate, 2 in. across, light rosy lilac with purple spots.

**THOMPSONI:** Shrub, about 15 feet. Seed collected 11/13,000 ft. Lvs. oval, 2-3 in. long, thin. Fls. 8-10, campanulate, 2 in. across, glossy bright red, calyx light green.

**TRIFLOSUM:** 6 ft. shrub, found at 7/13,000 feet. Ovate 2-3 in. long. Fls. shaped like common azalea, May/June, greenish yellow, 3 in. across.

**WIGHTII:** Shrub to 14 feet. 12,000 feet altitude. Lvs. 6-8 in. long. Fls. rich, yellow, spotted red within, campanulate,  $2\frac{1}{2}$  in. across.

*The BOOK of*  
**PERENNIALS**

—● By ●—

**Alfred Carl Hottes**

Author of *The Book of Annuals*, *The Book of Shrubs*, *The Book of Climbing Plants*, *1001 Garden Questions Answered*, *Practical Plant Propagation*, etc.

# The BOOK OF PERENNIALS

By ALFRED CARL HOTTES

●

The most noteworthy and useful representatives of this popular class of garden plants, to the number of over 140 separate species, are discussed individually, together with their culture and requirements. The exact pronunciation of the Latin or botanical name of each species is given.

A tabular cultural index giving species or variety, height, flowering period, color, etc. adds to the value of the book.

●

280 pages. Over 100 excellent  
halftone illustrations.

●

Cloth Binding, \$1.50  
Postpaid, \$1.65

Perennials are the most popular class of garden plants. They bloom year after year, and everybody plants them because they return so much for so little care.

How perennials are grown, how to use them, how to select them and propagate them, is told in plain language and in an interesting manner.

A continuous show of color from early April to October is afforded the amateur gardener who reads and profits by the selected lists of perennials given in this book. There are perennials suitable for dry places, for wet places, for cut flowers, for edging plants, for the rockery, for shade, sweet scented perennials, perennials to add to flower arrangements, etc.

## Books every Nurseryman should have

Alfred C. Hottes latest, "THE BOOK OF TREES" has been one of our best sellers. It covers the subject of trees, both deciduous and conifers, very thoroughly. We can heartily recommend it.

**Postpaid \$3.15**

THE BOOK OF PERENNIALS is another work of this author. It should be on every reference shelf.

**Postpaid \$1.65**

Dr. L. H. Bailey's "HORTUS" is the finest reference book published in recent years. It consolidated numerous nomenclatures into an invaluable handy reference book. Plant characteristics, propagation and care are easily found and described so clearly that even a layman understands them. We recommend this work to you.

**Postpaid \$10.00**

AZALEAS and CAMELIAS, by H. H. Hume is a brief and complete guide for planting and growing these increasingly popular broad-leaved evergreens. With illustrations in color.

**Postpaid \$1.50**

THE STANDARD CYCLOPEDIA OF HORTUCULTURE, edited by L. H. Bailey. This is the one universal and invaluable authority on every horticultural question. Makes a compact but thorough presentation of the kinds, characteristics and methods of cultivation of the plants grown in the United States and Canada for ornament, for fancy, for fruit, and for vegetables. Formerly in 6 volumes, but now in three at about half the original price. 5,000 illustrations, 3,637 pages, 3 volumes, fabrikoid binding.

**Postpaid \$25.00**

ROCK GARDENS AND ALPINE PLANTS, by Henry Corevon. You can choose from 542 kinds of rock plants and from them in your own garden with the information in this new book by the world's greatest authority, written specially for American conditions. 33 illustrations (16 plants in color), 560 pages.

**Postpaid \$6.00**

(Lilies) GARDEN CINDERELLAS, by Helen M. Fox. Expert information on growing lilies by a gardener whose knowledge is proven by her own success. Tells the name of every lily in cultivation, is native home, season of blooming, propagation methods, and every other detail needed for success. Beautifully illustrated in color and half-tone. 51 illustrations, 269 pages

**Postpaid \$5.00**

## BAMBOO SEED

(Bambusa or Arundinaria Chino)

This year is one of those rare ones in which there has been a crop of Bamboo Seed. As a large part of the Bamboo Forest generally dies after a seed year, it is generally hard to induce the natives to sell. Still, we have secured a small quantity which should arrive here in the latter part of August.

Bambusa chino is the plant which produces the Bamboo Stakes known in our Horticultural Trade. Some of our Southern States have had fair success in this field. It should prove a profitable industry.

As available seed is so limited, we can quote only upon application designating quantity in which you are interested.
